Electric Offer

In reply to several inquiries received anent the agreement submitted by the Calgary Power Co. at the Council meeting held last week, further particulars are given below.

Briefly, the company offered to buy the whole of the Didsbury electric plant for \$9000, including building, plant and distribution lines. As an alternative, it offered \$8000 for the existing distribution, that is, poles, wires, meters, etc., not including building or plant.

The offer included the payment of \$500 for an option expiring on May 1st next, for a franchise for ten years, with an option of a further ten years if desired.

If the company take up the option it undertakes to complete the line by September 1928.

The rates the company propose to charge are as follows:

For domestic use—

The first 30 kilowatt hours 10c per k.w. The next 20 kilowatt hours 10c per two k.h. All over 50 kilowatt hours 10c per 3 k.h. All over 200 kilowatt hours 10c per six k.h. with a service charge of \$1 per month and a minimum payment of \$2.30 gross or \$2 net.

For commercial use a service charge of \$1 per month for the first 500 watts of installed capacity and first 100 hours 10c per three kilowatt with a minimum monthly charge of \$2.

For power use, the service rates are based upon the capacity of the motors and the price for the current first hundred kilowatt hours per month 10c per two kilowatt hours. All over 100 will be at ten cents for three, with a minimum charge of \$3 per month.

The agreement calls for a twenty four service. The charge for street light, all night service, is \$3 per lamp, per month, not exceeding 250 candle power.

The proposed contract is subject to the passing of a by-law by the rate-payers and the approval of the Utility commissioners.

SCHOLARSHIP FOR GIRL STUDENTS

The Olds School of Agriculture offers a scholarship of \$110 to the girl student attaining highest standing at the Short Course to be held at the O.S.A.

The Short Course for the candidates is to be held between the dates of October 4th and 7th. Each Institute and U.F.W.A. in Central Alberta is given the opportunity to send one representative to this course. We are asking that each organization select their own representative, the only conditions attached are that the girls shall be sixteen years of age or over, be resident on a farm and have had not more than one year of high school education. It is also asked that each organization sending a representative pay the transportation of their candidate to and from Olds, and meet the small expense incurred for living expenses while she attends the course.

The Short Course will commence at 9:00 a.m. Tuesday morning, October 4th, and will continue for four days, the latter part of the fourth day being given over to examinations.

To the student attaining the highest standing will be awarded the scholarship. In the event of the winner being unable to attend, the scholarship will descend to the girl standing second. This will be used in defraying her expenses while attending the regular course at the O.S.A.

Wild Life Of Western Canada

Not least among the attractions that Western Canada has for many people, whether permanent resident, tourist or sportsman, is the abundance and variety of its wild life, and now that the hunting season is at hand it is opportune to make something more than a passing reference to the value of this great asset to all of our Western Provinces.

Judged from any and all standpoints the wild duck and geese, prairie chicken, partridge, and other game birds are of immense value to this country. They constitute a picturesque feature of life on the prairies and are a constant source of delight to the lover of nature. What greater pleasure can be had than to witness the flight of duck in the early dawn or as the sun sinks to rest? A man must be of a very stolid nature indeed who does not get a thrill as he watches them winging their way across the sky.

To the hunter our game birds offer the best of opportunities for the display of the keenest marksmanship, coupled with the best sportsmanlike qualities. And, finally, they provide a welcome addition to our food supply—a delicacy appreciated by all.

Later in the season comes the opportunity for the big game hunter to match his craft and skill with the deer and moose. In a word, the wild life of the West is a drawing card for thousands of people. Without these game birds and animals the West would not be the West which attracts and holds.

But human nature being what it is, it became necessary for Governments by legal enactments to protect these friends of man from man himself. As a result, the open season for shooting has had to be curtailed, and the size of "bags" greatly restricted in order to save birds and animals from extermination. And it is only through the strict observance of these laws, and a rigid compliance with all regulations, that a further curtailment of privileges now enjoyed can be avoided. Laws have been passed and regulations are enforced by Governments, not for the purpose of depriving hunters and citizens generally of the privilege of shooting, but in their own interests that it may be preserved and continued to them.

There are still some individuals in this world, who wrongly style themselves "sportsmen," who consider it sport and something to be proud of and boast about to shoot an inordinately large number of birds in a day or a season. These individuals revel in having their photographs taken, gun in hand, and with their "kill" displayed around them. The real sportsman, and the true citizen, looks upon all such exhibitions with regret and aathing contempt. It is one thing to shoot for food, or for an hour or two of the real thrill that comes to the true hunter, but quite another to engage in a worse than useless orgy of wanton slaughter. The man who will kill and kill for the mere joy of killing and in order that he may boast of his "bag" is no sportsman; on the contrary, he is the enemy of all sportsmen, and, in the final analysis, his own enemy. In the language of the old fable, he is destroying the goose that lays the golden eggs.

The writer of this article has no desire to preach; he is not a killjoy. But he would, even on the sordid grounds of self-interest, not to mention more lofty motives, urge all the people of Western Canada to constitute themselves unofficial game guardians,—to fully and loyally observe the spirit and letter of the game laws themselves, and see to it that other people do likewise.

A Professor of Psychology claims that brown eyes are an indication of a weak will. He might also add that black ones are an indication of a weak defense.—Judge.

According to British research experts, London's smoke cloud excludes nearly two-thirds of the beneficial ultra-violet rays of sunlight from that city.

Dial numbers have been converted into raised numbers to enable blind persons to tune in different stations on the radio receiver.

Statistics prove that while, on an average, women are now marrying at an earlier age than formerly, the age of the bridegrooms is proportionately older.

She "I've been married three times—and each time my husbands have been Williams."
He "I'll say you're a clever Bill collector."

Another experiment to hasten trans-Atlantic mails is being made. Planes will overtake and drop mail on liners far out to sea.

CHILDREN CRY FOR

MOTHER:—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

North Best For Whites

Tropics Only Suitable For Colored Race Says Scientist

The white races must eventually turn toward the polar regions in search of new homes, Dr. R. N. R. Brown, president of the Geographical section, told the British Association for the Advancement of Science at a meeting in Leeds, England.

"There is no real evidence that the whites are suited for permanent residence in the tropics," Dr. Brown declared. "All evidence that is conclusive suggests that the colored races will eventually occupy the warm lands."

"Eventually the tide of white settlement will definitely set northward, even to the Arctic seas, and in its flood destroy the present inhabitants."

Removes Touchy Corns Brings Solid Comfort

Acts like magic—takes out all the pain—makes aching corns feel comfy in a few seconds. That's how Putnam's Corn Extractor acts. You will not be disappointed with "Putnam's"—it never fails to lift out corns or remove painful callouses. Get "Putnam's Extractor" from your druggist. Refuse a substitute.

71-Year-Old Triplets

Abraham, Isaac and Jacob Waggoner, seventy-one year old triplets, claim the distinction of being the oldest triplets in Tennessee and possibly in the United States. They have lived all their lives within ten miles of one another, have never been ill enough to require a doctor's services and do not smoke, chew or drink.

MADE HER BABY PLUMP AND WELL

"Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children speak in enthusiastic terms of them. For instance, Mrs. Zepherin Lavoye, Three Rivers, Que., writes:—"Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels, and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do likewise." Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and simple fevers, expel worms, allay teething pains and promote healthful sleep. They are guaranteed to be free from injurious drugs and are safe even for the youngest and most delicate child. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In Abyssinia, a telephone message must first be written and handed to the operator, who in turn, shouts it into the transmitter, no one else being permitted to use the instrument.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

French Scientist Poorly Paid

Edouard Branly Has Worked Fifty Years Under Trying Conditions

Edouard Branly is cited by newspapers as typifying the struggle of French scientists to work under miserable conditions. Branly is inventor of the condensers France calls him the "father of the wireless."

Branly has as his only assistant in a ramshackle "laboratory" an aged woman who ekes out a living by doing extra hours of housework in other homes. This maid of all work is now the scientist's "laboratory chief." She was intelligent and the professor trained her in his work.

For fifty years Branly has worked under these conditions, drawing a salary of about \$75 a month as professor and supporting his family by occasional practice as a physician. These facts are told by French papers as illustrating the need to pay well men who give their lives to science.

Minard's Liniment eases sore feet.

W. N. U. 1698

Operates Restaurant 'Plane

Added To Paris-London Service By French Aviation Company

A "restaurant 'plane" has been placed in daily operation on the air line between Paris and London by a French aviation company, the Air-Union, according to advices to the Department of Commerce from W. H. Kelley, automotive trade commissioner to Europe.

A cold luncheon is served, including hors d'oeuvres, lobster, duck, veal, ham, salad, cheese, fruits and coffee, with wine, water or tea. In the near future an electric stove will be installed for preparing warm food.

The 'plane carries a pilot, a radio operator, cook, waiter and ten passengers and their baggage. It is one of the fastest in Europe, covering 335 miles in two hours.

Another Evolution Theory

British Zoologist Thinks Man Developed From Jelly Fish

If you are musical, like dancing, or have poetical instincts, you may thank your jelly fish progenitors of aeons ago. In the opinion of Dr. G. P. Bidder, British Zoologist, Dr. Bidder outlined his theory that man developed from the lowly jelly fish in an address at Leeds, England, before the British Association for the Advancement of Science, and added:

Our appreciation of dancing, poetry and jazz music is due to the metabolic rhythm inherited from our flagellate forefathers, and shows that we are still flagellates at heart."

The Good Natured Scotch

The Scotch are all right. But the Scotchman is thick-skinned and he can take a joke, and therefore the jokes about him grow apace. Jokes about the Jews and the Irish have virtually been ruled out of our theatres because of organized protest. Not so with jokes about the Scotch. The Scotchman chuckles at the stories about his penuriousness. He laughs at those excellent golf stories which usually permit him only one ball in his bag. And, after all, it is better to laugh with the people who laugh at you.

Supports Bay Route.

Entire support for the opening of the Hudson Bay route is given by the St. John Telegraph-Journal, one of the most influential newspapers of the Maritime provinces. "In fairness to the west," it says, "attempts to discredit the Bay route should cease. The plan is going through. It should be expedited. Let us hope that the results will fully meet the expectations of Manitoba and Saskatchewan. They have made a resolute fight for what they believed to be their due, and the rest of the country should wish them all good luck."

Used by physicians—Minard's Liniment.

Flour Exports

During the first six months of 1927, 16,819,328 barrels of flour were manufactured in Canada, a little more than half of which was exported from the country. In the twelve months ended June 30th, Canada exported \$65,104,452. Exports to the United Kingdom increased from 3,219,212 barrels worth \$21,692,802 in 1926 to 3,552,755 barrels worth \$24,085,189 in 1927.

Aviation Enters New Era

The recent inauguration of a country-wide system of air express marks the passage of aviation from its present era of stunt stuff with its inevitable high cost in human life, to the comparatively safe and sound basis of every day commercial use, in the opinion of R. E. M. Cowie, president of the American Railway Express Company.

Like a Grip at the Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages as thousands can testify. It is sold by dealers everywhere.

A robin built a nest on a mop on the back porch of the home of a Chicago woman. She secured another mop and left the robin undisturbed until a family of six were reared.

The Oil Of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

A French watchmaker has invented a watch that tells time without hands. A moving dial turns inside a stationary rim. The minutes appear on the rim and the hour is shown through an opening in the dial.

Minard's Liniment relieves backache.

Driving became dangerous in the old days when the horse felt his outst now it's when the driver feels his eye.

The speediest bacteria can travel only about four inches in 15 minutes.

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.
Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocrotic acid of Malleic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

STRONGER URGE FOR REDUCTION IN ARMAMENTS

Geneva.—That competitive armaments create an atmosphere of war and that reduction of armaments must be doggedly fought for and achieved was the outstanding feature of the addresses at the League of Nations assembly.

The Japanese delegate Mineichiro Adachi said Japan ardently desired that ruinous competition in armaments should be brought to a standstill and lowered to a level strictly essential to national security. He pledged his country's co-operation with the League's preparatory disarmament commission, which another speaker, Erich Lofgren, Foreign Minister of Sweden, insisted was useless to convene anew before the great military powers settled the divergencies of views which had appeared at previous meetings of the commission.

M. Lofgren criticized the council of the League for its passive attitude on political problems in the past year, alluding, it is believed, to the controversy between Italy and Jugoslavia, and showed no terror of the great powers when he scoured the practice of certain members of the League in discussing burning political questions among themselves.

After declaring the old pre-war methods were still in vogue, Felix Cielens, Foreign Minister of Latvia, warned the assembly that the military budgets of 1926, including naval and air forces, amounted in Europe to one billion and a half dollars, about the same as in 1913, and that the aggregate number of soldiers, more than three million, was only slightly less than the figure for 1918. Moreover, he remarked, the technical equipment of armies was far more developed than before the great war.

"We are living under the conditions of armed peace which prevailed before the war," he declared, "and under a system of competitive armaments which many of us believe will sooner or later land the world into war."

Fire Prevention Week Begins October Ninth

Proclamation Contained in Extra Edition Of Canada Gazette

Ottawa.—An extra edition of the Canada Gazette contains a proclamation appointing the week commencing October 9 "fire prevention week" and calling upon citizens of the Dominion to inspect their premises. Fire drills are called for in schools and institutions. Boy Scout leaders are asked to give special instruction, teachers and municipal officials are asked to give training in fire prevention in the school and publicity is asked for legislation and regulations pertaining to the question.

The preamble to the proclamation states that the average annual loss of insurable property exceeds \$10,000,000 and that 300 persons annually lose their lives as a result of fires.

Pioneer Of West Dead

Captain Bruce Griggs Brought Early Settlers Into Dominion

Winnipeg.—Capt. Bruce Griggs, one of the most picturesque figures of the Red River settlement frontier days, is dead in Seattle, Wash.

Capt. Bruce was one of the pioneers connected with the steamship transportation system between the Northwestern States and Canada, bringing many settlers into the Dominion previous to the completion of the first transcontinental railway line. He was 73 years of age.

Starts Aerial Mail Service

Montreal.—Canada's first attempt to start an aerial mail service was made September 7, when Major Tudhope, of the Canadian Aerial Service, hopped off from the Canadian Vickers' yards at Malton, Ontario, aboard a Vickers biplane for Father Point, where he made arrangements to take mail off the Empress of France when the liner was in the St. Lawrence waterway.

French Grateful For British Sympathy

Have Presented "Golden Book" To Chamberlain In Appreciation

Paris.—For months French artisans and statesmen have been busy preparing a "golden book" which has been given by Foreign Minister Briand and other Government officials to Sir Austen Chamberlain and Clemenceau, respectively.

The Minister of Foreign Affairs explains the motive of the gift—gratitude of France for British sympathy and aid. The Premier stresses the importance to world peace of Anglo-French co-operation and at the same time expresses French admiration, sympathy and affection for Britain. M. Clemenceau, the wartime Premier, writes: "True love consists not in the telling but in the proving."

The book contains views of the most interesting sites in France and the Colonies and is autographed by outstanding French statesmen, soldiers and diplomats.

Demands Repeal Of Trades Union Act

Alternative Set By Congress To Resignation Of Baldwin Government

Edmonton.—The Trades Union Congress in session here, replying to Premier Baldwin's appeal for industrial peace, carried by general acclamation a resolution demanding the immediate repeal of the Trade Unions Act (restricting certain trade union activities) and failing this, urging that a general election be called immediately.

The resolution emphasized that workers were desirous for industrial peace. It said, however, that peace was hindered by the government's industrial legislative policy; its attacks on the workers' wages; its action in lengthening the miners' hours of work and the "deliberate class bias displayed in trade disputes and in the Trades Unions Act."

Might Be Message From Distressed Plane

Carrier Pigeon Found Near Mission City Bearing SOS Message

Mission City, B.C.—Bearing the letters SOS and the figures 40022 on a metal band upon its leg, a carrier pigeon, which, it is thought, may have been freed from a distressed plane or ship, is at the ranch of I. Erickson, farmer, living at Silver Hill, seven miles from here.

The bird, and another carrier pigeon, alighted at the ranch in an exhausted condition and very thin as though they had flown a considerable distance. One of the pigeons flew away again.

Abandon Search For Fliers

Hope Of Finding Trace Of Missing Dole Aviators Has Vanished

San Diego, Cal.—The last hope that searching American war craft would find some trace of the seven missing Hawaiian fliers apparently vanished as the scout cruiser, Omaha, flagship of Rear Admiral Luke McNamé, and six destroyers rested here on their arrival from Honolulu after searching an area of approximately 450,000 square miles in extent.

Admiral McNamé reported that not a single trace of the missing Dole fliers was discovered.

Leave For Hudson Bay

Montreal.—Following upon the departure of the Canadian government merchant marine steamer, Canadian Raider, for Hudson Bay, via Sydney, N.S., where a cargo of coal will be loaded, the department of railways and canals has despatched the seagoing tug, Ocean Eagle, to Hudson Bay. The tug was formerly the St. Arvens of the Saint John Drydock Company. It is not known how long the Ocean Eagle will remain at Fort Churchill.

Would Extend Organization

Guelph, Ont.—Discussion of a concerted effort just now getting under way to incorporate all employees of the different branches of the postal service clerks, railway mail carriers, porters, letter-carriers and all others into one body, featured the third annual convention of the Dominion Postal Clerks of Ontario, held here.

Wins Prize For Coinage Design

J. E. H. MacDonald, Toronto, Ontario artist, who won the \$1,000 prize in the Dominion-wide competition for the best designs for Canada's new nickels and quarters. The new coinage will mark the Diamond Jubilee of Confederation.

More Grain Through Vancouver Port

Reduction In Rate From Calgary Will Increase Shipments

Vancouver.—The recent order of the Dominion Railway Board reducing to 20 cents the rate on export grain from Calgary to the Pacific coast means that the movement of grain through Vancouver this year will jump to 75,000,000 bushels, said G. G. McGeer, addressing the Vancouver South Federal Liberal Executive.

"The order is a guarantee of that, if it is carried out," said the freight rates expert of the Provincial Government. "And," he added, "that means Vancouver will become one of the greatest grain ports in the world, third or fourth."

British Columbia still had a complaint, however, he asserted, pointing out that the rate on the 968 miles haul to Quebec City had been placed at 18 cents, while that for the 642 miles haul to Vancouver was 20 cents.

"We don't care what the rate to Quebec is," Mr. McGeer exclaimed. "We don't care how low it has to be to help Quebec to get the business away from New York. But Vancouver wants the same treatment. Vancouver is just as much in competition with New York as is Quebec."

Canadian Heads Committee

General.—Hon. Raoul Dandurand, Canadian Senator, has been appointed chairman of one of six committees appointed by the Assembly of the League of Nations. Senator Dandurand is chairman of the committee which deals with the following subjects: Alcoholism, economic conference and the work of the various organizations of the League of Nations.

Lowest Birth and Death Rate

London.—The lowest birth rate ever reported in England and Wales, except in war time, is shown by the report of Sir George Newman, chief medical officer of the ministry of health, for 1926. There was 694,000 births and 453,000 deaths. The latter also was the lowest ever recorded. The 1925 report shows 710,582 births and 473,006 deaths.

Return From Visit To England

Hon. J. E. Brownlee, premier of Alberta, and Mrs. Brownlee, recently returned from England. In this photograph, taken on the White Star liner Regina, on which they returned, Mr. and Mrs. Brownlee are shown on the right. Other members of the group who came back on the Regina are, from left to right: A. J. McPhail, president of the Canadian Co-operative Wheat Producers Association, Mrs. McPhail, and Mrs. D. L. Smith.

Stripped Of Aviation Honors

French Flier Charged With Falsifying Report Of Altitude Record

Paris.—Jean Callizo, who gained fame as an altitude flier, stands disgraced and stripped of his honors.

The sports committee of the French Aero Club after a hearing on the charges that he falsified the barograph records of his latest record breaking attempt, decided that they were fully proved.

It inflicted the severest penalty within its power—disqualification for life—and struck from its list the previous records with which he was credited.

The French altitude record, by virtue of the club's action, now goes to Sadi Lecointe and the world's record to former Lieutenant J. A. Macready, of the United States army air force.

The charges against Callizo, as published in the French press, were that he inserted on his barograph a sheet on which a curve had already been plotted in invisible ink, to indicate a record-breaking flight of 13,000 metres, or 38,701 feet. It was alleged that after taking off for the purported attempt he shot steam against the paper, thus making the ink legible and subsequently submitted the sheet as proof of his record breaking claim.

Germany Affected By Polish Tariff

Hit Harder Than Other Countries By New Ruling

Warsaw.—Customs tariffs will be increased by 100 per cent., effective in four months, to all countries not protected by trade treaty with Poland, an official bulletin announces.

The ruling will hit hardest Poland's western neighbor, Germany, with whom negotiations for a commercial accord have been in progress five years without result.

One of the difficulties preventing the conclusion of a Polish-German agreement is Germany's insistence that Poland deport no German citizens now residing on Polish soil.

Several other points, also foreign to trade, are causing delays, through the two Governments are practically agreed as far as commerce itself is concerned.

Will Of J. Ogden Armour

Left An Estate Valued At One Million Dollars

Chicago.—The will of J. Ogden Armour, who once was worth an estimated \$200,000,000, was filed for probate and disposed of an indicated estate of \$1,000,000.

The will left \$100,000 outright to his daughter, Lolita, now Mrs. John J. Mitchell, Jr., and an annuity of \$12,000 to her husband.

The remainder of the estate, except for a few minor bequests of from \$1,000 to \$5,000 to servants, was left in trust for the benefit of the widow and daughter.

Predict Early Winter

Loveland, Col.—Two flocks of wild geese have been seen flying South for the winter. The early appearance of the birds, which usually do not migrate until Fall, has led to predictions of an early and severe winter. Sportsmen fear the geese all will be gone before the hunting season opens.

DOMINION HAS DEVELOPED A MARKED IDENTITY

Vancouver.—There can be no question of the existence of distinguishing characteristics which give to Canada a marked identity of her own among the nations of the world, Sir Robert Falconer, president of the University of Toronto, said here, addressing the Canadian Club on the subject, "Elements of Canadian Nationality."

"All across Canada the pronounced characteristics of the people are more and more apparent," the speaker said. "And there is unity everywhere. No matter where one travels in Canada one feels at home, but when you cross the line into the United States there is not the same feeling."

Sir Robert credited the Maritime provinces with being responsible for the Canada of today. He said if there had been no Maritimes there probably would have been no British Canada. The founding of Halifax in 1749 was one of the most strategic moves ever made by Great Britain. He also gave credit to the United Empire Loyalists for playing an important part in laying truly the foundations of the Dominion.

"Halifax held Nova Scotia and New Brunswick loyal," said Sir Robert, "and the Maritimes always must remain a very important part of Canada."

The speaker told of the extreme difficulties which the early British settlers in Canada faced. However, these conditions bred men of resource and adaptability.

Sir Robert dwelt on the question of the French in Canada, commenting upon the difficulties encountered through two entirely different peoples living side by side. The wonder was that there was not more trouble in the early days. As time progressed the two had come to know each other better, an element of tolerance had developed, and there was a better feeling today than ever before.

Trying To Adjust Immigration Rules

Change Would Simplify Problem Of Canadians Working In Border Cities

Toronto.—The Toronto Mail and Empire publishes the following despatch from Washington:

"A new program of amendments to immigration and naturalization laws is being worked out by experts in the Labor Department in anticipation of action upon that subject in the next congress."

"Secretary of Labor Davis, returning today from an inspection of border operations, outlined his plans to his assistants and announced that immigration in future, if he has his way, will be on a much stricter basis."

"Changes in the law to be proposed include: Revision of quota laws so as to smooth out present difficulties with Canada and permit Canadian aliens to work in American border cities, such as Detroit and Buffalo, without undue hardship."

John Oliver's Will

Vancouver.—Probate was granted in supreme court by Mr. Justice Morrison of the late Premier John Oliver's will. In a four-page document executed July 15 last and signed "Hon. John Oliver," the testator disposed of a gross estate of \$75,918, which is subject to liabilities of \$510, so that the net valuation is \$75,408. Mr. Oliver died August 17 at Victoria. The widow, five sons and three daughters are the sole beneficiaries.

Two Killed In Collision

Calgary.—Two trainmen were killed, one passenger injured, and more than a score suffering from slight bruises and shock, when C.P.R. passenger trains second No. 1 and second No. 2, the Imperial Limiteds, met in a head-on collision at Dalmenad, 48 miles east of Calgary, on the main line.

Against Communist Party

Halberstadt, Germany.—The Pan-German League, which is holding a convention here, has adopted resolutions, demanding the dissolution of the communist party and the suppression of its organs. The league represents the national extremists.

LOCAL AND GENERAL

A wonderful picture at the Opera House on Saturday, entitled "Mother," starring Belle Bennett. At 10.15 p.m. will be shown the Dempsey - Sharkey picture, one showing only.

The marriage took place on Wednesday of this week at Calgary, of Miss Muriel Alice Liphardt to Mr. C. R. Cobb.

Mr. and Mrs. H. M. Reiber were on a tour of the south country last week, visiting Brooks and other towns. Among other places of interest, they were particularly struck with the irrigation belt, and from this section they returned laden with various kinds of small and large fruits, all of which grow to profusion.

E. J. Ranton, who took over Hugel's store on the 10th, is expected to arrive here on Monday to give the business his personal supervision.

Mrs. Scrutton returned on Tuesday from a visit to the old country.

"Senior Daredevil," a thriller, at the Opera House on Wednesday, September 21st.

Jim McGhee has resumed his duties at the C.P.R. after a few weeks' vacation in B.C.

BEFORE WINTER & THE BIG FIGHT

C. F. DOOLEY Phone 64

An increased duty has been placed by the Dominion government on various U.S. magazines, ranging from 50 to 100 per cent. In consequence, magazines that have been selling for 25c will now be 40 or 50c.

A heavy frost was registered in this district last night, flowers and garden stuff generally being hard hit.

See W. A. Teskey's advt. in this issue for tractor bargains.

J. W. Smiley and son George are back from Nelson, B.C., after an absence of two years.

Bergen - Niche Valley

Mr. Ben Scott from Three Hills has leased Sec. 1-32 6-5 and has been living for some months on the Goodland place.

Egil and Ole Erickson have bought the S.E. quarter of sec. 7-32-5-5 and have done some breaking and a lot of fence-making.

Mr. Stevens is having a strenuous time road-making and lumber hauling. We hope he may eventually have success. If labor brings success he will have it.

We have had three frosts since September 2nd, which will put the ripened grain sometime in the future.

The berries have not been very plentiful but Orville Geiger finds fishing quite a luxury.

Mrs. J. J. Davidson is preparing to leave for Scotland in October. Eidsvold school began on September 6th.

Mrs. Dave Allen is visiting in the U. S. for an indefinite period. Some people say Mr. Zob Howey has a son large enough to chew tobacco, but as I am from Missouri I have to be shown.

Florence Gamble had her tonsils removed recently and has not felt very spry.

Mildred Oleson held the services at Bergen, Sept. 4.

Ben Lutkehaus has rented a farm in the Peace River country. The Monarch Oil Co. are opening their well at Coal Camp.

I. S. G.

Successful Fair held at Harmattan.

The Harmattan W.I. put on their second Annual Fair at the Community Hall, on August 26th.

There were about 350 entries and with ideal weather and a large crowd, the fair was an undoubted success.

Thanks are due mainly to Mrs. L. McDonnell, who worked untiringly and proved herself to be a most capable organizer. Thanks are also due to Mr. J. H. Johnson for his valuable assistance in securing some excellent prizes, and also to the people of Olds for their generous support in that way. Boy Scouts, camping in the neighborhood, also rendered help in many ways, especially in the kitchen, where their help was much appreciated by those in charge. Thanks are

due to the many others who helped in any way to make the day a success.

We were very fortunate in securing Mrs. S. Grisdale and Miss Clutton of the Olds School of Agriculture, for judging the fine display of exhibits.

A baseball game between the Harmattan and Westerdale teams, resulted in victory for the home team.

Races for the young and old were looked after by Mr. Cough and Mr. Clyde Sturrock. Mr. W. Webb had charge of the horseshoes.

Ice cream and soft drinks were in big demand, but unfortunately there was a mistake in the ice cream order and a too limited supply was on hand. Mr. Dench and Mr. Conrad had charge of that department.

The prize winners were:

Section 1.

Class 1, Sheaf of Wheat—Special prize, carving set, donated by McKercher's Hardware, Olds, Walter Webb; 1st cash prize, Mr. D. Clark; 2nd cash prize, Mr. C. Cough.

Class 2, Sheaf of Oats—1st, Walter Webb; 2nd, Albin Carlson.

Class 3, Sheaf of Barley—1st, C. Sturrock; 2nd, R. Sturrock.

Class 4, Collection of Vegetables—Special prize, Japanese vase, donated by McKercher's Hardware, Olds, Mrs. A. Carlson; 1st cash prize, Mrs. J. Strong; 2nd cash prize, Mrs. J. Webb; 3rd cash prize, Mrs. R. B. Conrad.

Class 5, Bouquet of Wild Flowers—1st prize, Mrs. Stang; 2nd prize, Mrs. Schivisinger.

Class 6, Bouquet Cultivated Flowers—1st, Mrs. J. Morgan; 2nd, Mrs. J. Webb.

Class 7, Bouquet of Sweet Peas—1st, Mrs. J. Webb (special donated by Armstrong's Bakery); 2nd, Mrs. Grange.

Section 2.

Class 1, Butter, in prints—Special, ham donated by Currie Bros., of Olds, Mrs. R. Sturrock; 1st cash prize, Mrs. O. Gilmore; 2nd cash prize, Mrs. J. Webb.

Class 2, 1 doz. brown eggs—1st prize, Mrs. Schivisinger; 2nd prize, Mrs. W. Webb.

Class 3, Cheese—1st prize, Mrs. G. Webb; 2nd prize, Mrs. Carlson.

Section 3.

Class 1, loaf of White Bread—1st, special, 50 lbs. flour, donated by Davey Bros., Olds, Mrs. O. Gilmore; 2nd, special, snap shot album, donated by Arthur Johnson, Harmattan, Mrs. W. Webb; 1st cash prize, Mrs. M. Armstrong; 2nd cash prize, Mrs. C. Sturrock.

Class 2, loaf of Brown Bread—Special prize, 50 lbs. flour, donated by J. H. Johnson, Harmattan, Mrs. Carlson; 1st cash prize, Mrs. W. Webb; 2nd cash prize, Mrs. J. Webb.

Class 3, 1 doz. Doughnuts—Special donated by J. H. Johnson, Mrs. Strong; 1st cash prize, Mrs. Harry Johnson, Eagle Hill; 2nd cash prize, Mrs. Wright.

Section 3.

Class 4, Buns—1st prize, Mrs. Carlson; 2nd prize, Mrs. Alex. Ross.

Class 5, Layer Cake—Special prize, Pyrex dish, donated by J. H. Johnson, Mrs. Bryant; 1st cash prize, Mrs. J. Webb; 2nd cash prize, Mrs. R. Sturrock.

Class 6, Shortbread—1st prize, Mrs. Bacon; 2nd prize, Mrs. Alex. Ross.

Class 7, School Lunch—1st prize, Mrs. J. Webb; 2nd prize, Mrs. Bryant.

Class 8, Two-Crust Pie—1st, Special purse, donated by Mr. Paul, Olds, Mrs. Schivisinger; 2nd, special, fancy handkerchiefs, donated by J. H. Johnson, Mrs. J. Johnson; 1st cash prize, Mrs. E. Armstrong; 2nd cash prize, Mrs. Carlson.

With the fisheries of the province of British Columbia running to \$21,000,000 annually—or half the Canadian total—numbers of enquiries are being received from financial interests in Eastern Canada and the United States, with a view to spying out business opportunities.

Until the problem of truck competition is solved satisfactorily all transportation in Canada will suffer, according to T. E. McDonnell, Vice-President of the Canadian Pacific Express Company, in a Toronto address recently before the Transportation Club. He states that under the present transportation regulations the railway and express companies are operating under very unfair conditions.

For the second time in three weeks the stork has paid a visit to a Canadian Pacific passenger train. Yesterday on the Imperial Limited going east from Vancouver, Mrs. Olson, of Malakwa, B.C., gave birth to a son between Malakwa and Revelstoke. Mrs. Olson was on the way at the time to the Revelstoke hospital. Railway officials and employees did all in their power to render assistance. Telegraphic dispatches from the hospital state that both mother and son are doing well.

The election of J. H. R. Fairbairn, of Montreal, chief engineer of the Canadian Pacific Railway, as president of the Engineering Alumni of the University of Toronto, was announced at a dinner-smoker of the alumni held in Hart House recently. More than 150 graduates acclaimed the new president with the enthusiastic spirit characteristic of a gathering of "School" men. The chief speakers of the evening were Sir Robert Falconer, President of the University, and Mr. Fairbairn.

Stomach Gas Drives Man From Bed

"I had gas so bad I had to get up nights on account of the pressure on my heart. I used Adlerika and have been entirely relieved."—R. F. Krueger.

Even the FIRST spoonful of Adlerika relieves gas and often removes astonishing amount of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. H. W. Chambers.

Hundreds of Furnaces are Installed

Blind Folded

Scientists have made two vital discoveries regarding domestic heating. The first is that practically all inefficient heating systems are the result of improper installations. The second—that Warm Air, scientifically installed, is healthier and more economical than any other system.

As a result of these discoveries, heating engineers have prepared a Standard Code

for installing Warm Air systems which guarantees efficiency and winter comfort such as has never before been attained. Today no home owner need install his heating system "blindfolded". McClary's Sunshine Furnace is now installed according to Standard Code—assuring a job infinitely more efficient, healthful and money-saving than any yet discovered.

McClary's are the only Canadian members of the National Warm Air Heating and Ventilating Association—an association which has adopted a scientific code for installing warm air furnaces. By insisting on a McClary's "Code Installed" Sunshine Furnace you are guaranteed a heating system which costs less to buy and less to maintain than more elaborate systems—yet provides 70 degrees of heat in every room.

Ventiblast

McClary's Ventiblast is an exclusive feature of McClary's Sunshine Furnace which burns soft coal equally as well as hard coal, coke or wood. It mixes pre-heated air with soft coal gases and converts them into flame—thus eliminating soot, waste and dust.

Fill in and mail attached coupon, and we will send you name and address of the nearest McClary's dealer who will guarantee a "Code Installed" heating system which will give lifetime satisfaction.

MAIL THIS COUPON

THE McCLARY MFG. CO.,
LONDON, CANADA.

Please send name of nearest McClary's dealer who installs Sunshine Furnaces according to Standard Code.

WORLD HAPPENINGS BRIEFLY TOLD

Seeing New York by air is cheaper than by taxi. The same route covered by an airplane at a cost of \$5 will run up a taxi bill of \$6.10.

Wayne B. Wheeler, general counsel of the anti-saloon league of America, died at Battle Creek sanitarium recently, due to a heart attack.

Immigration to Canada for the month of July, 1927, totalled 12,288, made up of 5,432 from the British Isles, 2,101 from the United States and 5,155 from other countries.

Ernst Vierkötter, who won the Canadian National Exhibition marathon swim is now planning a vaudeville tour, after which he will likely enter motion pictures.

The purchase of 16 quarter sections of land, involving \$56,325, was the result of the visit of a party of land-seekers from Nebraska and Kansas to the Eaton, Tyner Valley and Snipe Lake districts in Saskatchewan recently.

Communal rioting at Nagpur, capital of the central provinces, British India, resulting in the death of 15 persons, is reported by the Bombay correspondent of The Exchange Telegraph. Many families are leaving the city, fearing renewal of the troubles.

Commander Richard E. Byrd states that he has planned to leave New York next August on his South Pole expedition and that Floyd Bennett, who accompanied him on his flight to the North Pole, would be second in command of the party.

The Aero Club Committee, after hearing Jean Calzillo, French aviator, who recently claimed to have made an ascent of 13,660 metres (42,651 feet), decided unanimously not to register his record of August 28, and to disqualify Calzillo for life.

M. Briand, foreign minister, acting as president of the allied conference of ambassadors, has formally notified M. Stresemann, Germany, that the allied army of occupation in the Rhineland will be reduced from 70,000 to 60,000 men. Details of the reductions will be announced later.

Mothers, Your Health Must Be Up to Par

London, Ont.—“During one of my expectant periods I was so weak and nervous I could not get around, my head ached, I felt heavy all the time and suffered with sick stomach. I was advised to take Dr. Pierce's Favorite Prescription, and after I began taking it I got along fine. It relieved me of all the bad effects, made me well and strong, my nerves were good, and I kept so well I could do all my own work and I had a fine healthy baby.”

“I also find that Dr. Pierce's Pleasant Pellets keep the stomach, liver and bowels in perfect working order and never cause distress.”—Mrs. James Campbell, 109 Inkerman St. (picture above) All druggists.

Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., if you desire a trial pkg. Favorite Prescription tablets or Pleasant Pellets.

W. N. U. 1698

New Narcotic Gas

Brings Deep Sleep and Has No After Effects

At the last meeting of the Medical Society in Berlin, Professor Unger described his experience with the new narcotic gas technically known as E. 107. Up to the present it has been customary to use either ether or chloroform to produce unconsciousness in surgical cases. Gauss recently introduced another means, a pure gas entitled naarkylen, made of purified acetylene, but for various reasons its use has not become general.

It was not any danger connected with the use of ether or chloroform that induced the attempt to produce E. 107, but the discomfort connected with their use. Many sick people are unpleasantly affected by ether or chloroform; the feel of the mask, the choking sensation, the knowledge that they are being put to sleep by force, combine to make them nervous. On awakening they are plagued with thirst.

E. 107 does not have to be breathed in. It is applied by means of a syringe and works from the intestines. In eight to fifteen minutes the patient falls into a natural sleep, lasting for several hours, and feels no after effects on awakening. It is a sleep of unconsciousness during which no pain can be felt and muscles are relaxed. The drug has no effect upon the heart, but sometimes affects the breathing.

Other physicians related their experiences to the society. About a thousand cases of operations with E. 107 were reported, but the medical profession does not consider it possible to form a definite opinion as to the value of the drug until far more evidence had been collected. For the present the use of E. 107 therefore has been confined to a few great surgical stations for continued experiments.

Goes To Argentina

W. J. JACKMAN

W. J. Jackman, of Clover Bar, Alberta, is now on his way to Buenos Ayres, Argentina, where he will make his headquarters as representative of the Canadian Wheat Pool for South America. Mr. Jackman has been on the board of directors for the Alberta Wheat Pool since the formation of that organization. He has resided in Alberta for over 22 years, coming in 1905 from the old country to farm. During his residence in Alberta he has always taken an active interest in farmers' organizations. His intimate knowledge of pool operations, his organizing and business ability and his knowledge of the Spanish language equip Mr. Jackman to be a splendid representative of the Canadian Pool in South America.

Heat Stored Underground

Man Should Bore Holes in Earth To Obtain Heat Supply

Man should bore holes to get heat from the interior of the earth instead of destroying a highly elaborate substance like coal, the British Association of Science was told by J. L. Hodgson, mechanical engineer.

He declared that heat stored in great spheres inside the earth is at least 30,000,000 times that available in the world's coal reserve. Hot rocks are found, he said, only about 33 miles below the surface and much nearer in volcanic areas.

The speaker said he advocated drilling shafts five miles apart. Workers boring the holes would be protected by heat proof suits, including liquid air containers to supply cool dry air.

The lecturer estimated that a cubic mile of hot rock would yield as much heat as burning 200,000,000 tons of coal.

Make Glue From Fish Scales

Fish glue prepared from scales by natives of the Congo region in Africa, is used for waterproofing their clothes as well as canoes, Popular Mechanics magazine says. The natives prepare the glue by mixing the scales of fish with twigs of various plants and boiling the mixture. The materials to be waterproofed are then dipped in this glue, and allowed to dry.

BRITISH SCHOOL BOYS VISIT CANADA

A party of British public school boys arrived in Canada on Saturday on the White Star liner Albertic to make a tour of Montreal, Ottawa, Toronto, Algonquin Park and New York, to become better acquainted with Canadian boys and to understand the points of view of other nations by means of personal friendship. They are in charge of Rev. E. S. Fellowes-Farrow, M.A., F.R.G.S., of Cambridge University, third from the left in the front row, and Rev. Howard J. Rose, M.A., of Oxford University, on the extreme right.

SUNDAY SCHOOL LESSON

SEPTEMBER 18

THE KINGDOM DIVIDED

Golden Text: “Pride goeth before destruction, and a haughty spirit before a fall.”—Proverbs 16:18.

Lesson: 1 Kings 12:1-24.

Devotional Reading: Proverbs 1:20-26.

Explanations and Comments

I. The Request of the People, verses 1-5. Rehoboam, Solomon's successor, went to Shechem and there the people, through Jeroboam the son of Nebat asked for a reduction of their burdens. “Thy father made our yoke grievous,” they said. The “yoke” was an emblem of servitude; compare Jesus's words in Matthew 11:30. The people had been heavily taxed by Solomon, and forced labor had been required. Recall Samuel's prophecy when the people demanded a king, 1 Samuel 8:10-18, and read 1 Kings 4:7, 22-26; 5:11-18, to see how Solomon's extravagant court and his immense buildings must have impoverished the people. “Now therefore make thou the grievous service of thy father, and his heavy yoke which he put upon us, lighter, and we will serve thee”: this was the condition on which the Northern Tribes offered to pledge their loyalty to the new king. The king was not ready to answer the people, and asked them to leave and return in three days' time.

Rehoboam's first mistake was in waiting for the advice of any one. His own heart should have told him that the request of the people was just and right, and instead of asking for three days' delay he should have answered at once, “I will make your yoke lighter.” How the people would have made the valley ring with their shout of “Long live the King!” It is always a mistake to consult others about a plain duty.

II. The King's Good Counsellors, verses 6, 7.—“What shall I answer the people?” Jeroboam asked of the men of experience, the elders of the people who had been in Solomon's service. “If you will yield to the people's will for the present,” they replied, “and will do their will and speak well to them, then they will become your servants for ever.” They seem to counsel fair promises rather than actually fair dealing, yet they certainly advocated conciliatory measures.

“That is the best government which desires to make the people happy, and knows how to make them happy.”—Macaulay.

Naval Men Excluded From Active Politics

Cannot Make Any Speeches Or Serve On Committees

Naval men will be virtually excluded from active politics by a new order issued by the Admiralty.

The order forbids any naval officer or man to make an address to electors or in any manner allow himself to become a candidate for Parliament. The prohibition applies also to the Parliament of Northern Ireland, the Free State Dail and the Malta Parliament, and forbids speaking or appearing on the platform at political meetings or serving on election committees.

It is provided that naval officers must seek permission from naval authorities if they wish to enter the political field.

The mortality of pigeons has been markedly reduced as a result of the introduction of clay targets. Why not clay pedestrians?

It is estimated that \$300,000,000 worth of automobiles are stolen annually in the United States.

Invade Railroad Field

Number Of Women Employees Is Rapidly Increasing

The rapid advance that women have made numerically into railroad-ing during the past seven years is signalled in figures published in the Illinois Central Magazine. It reports that in the period under review the number of women employed on Class 1 steam railroads has increased more than 50 per cent. They now constitute one-thirtieth of the total staff. Their number in 1926 is given as 61,302.

Women were employed in almost every branch of railroad service last year, including two in train operation and 290 in shopwork, but the most numerous class was naturally that engaged in clerical and semi-clerical occupations, accounting for 51,127, the magazine reports. The next largest class in 1926 was that employed in cleaning, namely, 3,332; other large figures being “personal service” (waitresses, laundresses, etc.), 1,814, and telegraph and telephone operators, 1,427.

CHOLERA, CRAMPS, PAINS IN THE STOMACH RELIEVED BY

Mrs. D. Leavitt, Back Bay, N.B., writes:—“Last summer my children were very ill with cholera and suffered severely from cramps and pains in their stomachs. I tried several remedies, but nothing seemed to do them any good. A friend of mine told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle and gave them a few doses and they soon found relief. Now I will never be without it in the summer months.”

Don't Accept a Substitute This preparation has been on the market for 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

The only thing in the four Gospels to which Hindus invariably take exception is the killing of the fatted calf. This is because they regard the cow as sacred.

The more lawn some people have to mow the more they borrow the mower.

Foot Weary and Sore?

CHAPTER VII.—Continued

The magistrate proceeded to give judgment. "Stand up," he commanded again.

Heini stood.

"You see — she understands — I thought she did."

Addressing Heini he said, "You could have cleared yourself perhaps of one charge, but not of the other. So I have no option but to send you to jail. You shall be confined for three months at Stoney Mountain."

Miss Rodgers was on her feet. "I appeal the case," she said.

The court room began to empty. Only the regulars held their seats. The transients were going. Some of the women would go back to attack the dishes they left in the sink; others went to inspect the shop windows; two of them strolled leisurely down to the White Lunch to have a cup of coffee and a piece of pie. It was near lunch time, and as Mrs. Morrish remarked to her friend Mrs. Edgar, "When a woman has only herself to cook for, she never cares when or what she eats."

They discussed the case as they sat at the marble topped table.

"That girl was innocent," said Mrs. Morrish, "but foolish. I'll bet she's shielding a man."

"Oh, I don't know," remarked her friend; "I remember when I was her age I had an awful crush on a woman about ten years older than I was. I forget her name now, but she was my goddess for the time. There was something fine in that girl's face — something noble. It seems a pity to send her to jail, where she will have to see and hear everything that's vile and ugly. The whole thing is rotten."

"Well," said the other one, "why don't we try to do something?"

"What's the use?" Mrs. Edgar was breaking her pie with her fork. "Women never hold together. That's why people like Magistrate Windsor can insult the women's organizations and get away with it. The women's clubs are trying to make things better, and they get blamed for what goes wrong. You and I do nothing and therefore are never blamed for anything. Great system!"

OPERATION LEFT HER VERY WEAK

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and a three weeks' stay in a hospital I returned home so weak that I was unable to move a chair. For four months I was almost frantic with pains and suffering until I thought sure there could not be any help for me. I had very severe pains in my left side and suffered agony every month. One day when I was not able to get up my mother begged me to try your medicine. My husband got me a bottle of Vegetable Compound at once and I took it. I started a second bottle, and to my surprise and joy the pains in my side left me completely and I am able to do all my work without help. I am a farmer's wife, so you see I can't be idle long. In all, I have taken six bottles of Lydia E. Pinkham's Compound, five boxes of the Compound Tablets, two bottles of Lydia E. Pinkham's Blood Medicine, and have also used the Sensitive Wash."—Mrs. L. LAJEUNESSE, Box 103, Coniston, Ontario.

She began by making some sort of

"Well, some of the women in the clubs are funny," said Mrs. Morrish. "I saw one of them the other day getting her money out of a pocket in her petticoat. She's one of their big spouters, too. Why don't they keep up with the times, visit beauty parlors and learn the use of cutex?"

The other woman considered a moment—"Still, there's nothing criminal in keeping money in the pocket of your petticoat," she said, "when you come to think of it. She was lucky to have money anywhere. And life abounds in odd sights. I saw one of our foremost citizens trying to unlock the door of her suite with a button-hook last night. But so long as we are not doing anything to make things better we should not be critical. You won't forget this afternoon — don't be late—I am just having four tables."

CHAPTER VIII.

The Girls' Friendly Home stands on a hill overlooking the city, a great bare, white building with glittering windows, which in the rays of the setting sun burn like the bush that Moses saw, yet like the bush are not consumed.

It seemed to be ever looking down with its many eyes on the struggling people below, watching them with kindly glances, ever beckoning to those who are sore beset in the struggle to come up and find safety. Indeed, some such conception was in the minds of those who built it, and in the dedication services many an eloquent speaker told of the seething pitiless city, with its pitfalls and temptations, and rejoiced that here on this quiet hill-top the people of God had made an island of safety where the young things caught in life's cruel tangle could find sanctuary.

There were numerous references in the dedication speeches to the lost lambs of the flock, pierced by many a thorn; the white lily bruised and broken and crushed in the dust of life, the lost piece of silver which caused such a household upheaval. The speeches were made by the ministers of the city, who in large proportion made up the Board; the other members being of that type of middle-aged portly gentlemen who are usually alluded to as "solid" business men."

The Board had its troubles, and sometimes even contemplated adding women to its numbers. Some of the ministers made that suggestion, speaking enthusiastically of the excellent help they received from Ladies' Aid and other societies in their churches. As a rule the solid business men opposed the proposal. It was felt that the presence of ladies might prove embarrassing. There were certain matters which were best discussed by men alone — besides, there was always a danger of women being too emotional. There was an Auxiliary Board, composed entirely of women, who held bazaars, teas, chicken suppers, made towels and sheets, looked after the girls' clothing, solicited donations and in general did all those little unimportant, yet necessary, things which women do so well. It was felt by the majority of the Board that the women had their part, and it would be better not to confuse the issue.

The first difficulty the Board experienced was with a Matron—rather a young person she was for such an important position, scarcely forty, who had come highly recommended from one of the Western States. She had many relatives in the city, and it was felt that her appointment might interest some more of the solid business men in the home, for her relatives were of that type.

She began by making some sort of

a merit system in the Home, which was rather alarming. She unlocked the doors; insisted that the girls lay aside the mud-colored uniforms which the Board had decreed should be worn, and actually took the girls out with her in turn to the movies and to concerts and lectures. She also had her friends come with their cars every week to take the girls for drives. She planned picnics, corn-roasts, excursions, and indeed made the Home such a happy place that not one of the girls attempted to escape, although they had every opportunity to do so.

The Board looked on calmly disapproving, yet helpless. But the matter came to a crisis at a meeting where the Matron was present by request. One of the members (and one of the most solid, too) began by pointing out that there should be some differences in the way well-behaved girls and fallen girls are treated. Here the Matron interrupted to ask him to retract the word "fallen." She gave the Board members positive chills by the things she said about the double standard of morals which was made by men to shield men, and went on to tell them that many of the girls were innocent young things from the country who had come to work in the city to help the family at home, and had fallen victims to men's lust and hypocrisy. The very men who led them astray, fathers of families some of them, and regarded as respectable men in society, no doubt now spoke of these girls as "fallen women."

It was most embarrassing. She hinted that there should be women on the Board and questioned the ability of men to quite understand the problems of rescue work.

Anyone can see from this what sort of woman the Matron was and why the Board dismissed her. The girls had loved her and had done their best to carry out all her wishes. They had scrubbed and washed and polished the Home until it sparkled; they had planted a garden and made flower beds; they had sewed and crocheted and embroidered; they had studied, sung, prayed, and bravely tried to live a useful happy life. The day she left the scenes were disgraced—not a girl eat a mouthful—they just sat and cried. The Board could see they had done well to get rid of her; she was having such a weakening effect on the girls.

The Board decided then and there to have a man for the head assisted by a woman of course. "There must needs be a woman," said the good old Dr. Saythe, "for appearance sake at least." So, after diligent care, Mr. and Mrs. Wymouth were found somewhere in the East where they were doing evangelistic work. Their letters of recommendation abounded in such terms as "earnest co-operation," "moral worthiness," "deep sincerity," "unfailing devotion," "passion for souls," etc. The Board was pleased with their joint and several appearance.

(To Be Continued.)

Would Avert Oil Famine

Scientist Discovers Process To Get More From Wells

An impecunious government scientist has developed a process which will permit nearly 100 per cent. of the oil supply to be taken from oil wells instead of 15 per cent., which is the present average.

Dr. P. G. Nutting discovered that by the simple use of washing-soda this elusive 85 per cent of hidden oil could be dissolved and extracted from the sand.

Laboratory tests were 100 per cent. perfect, but in actual field operation the results may not be so great. Oil experts say if it goes 40 per cent. it will save off for a considerable time the anticipated oil famine which is expected to develop at the end of six years.

Will Return War Relics

U.S. Colonel Has Large Collection Of German and Austrian Souvenirs

A man of 52, whose diffident manner and youthful face belie his age and his attainments, sailed from New York recently, en route to Hamburg, Germany. With him a small wooden box and a large packing case.

The man, who is Lieut.-Col. George Crouse Cook, R.C., U.S.A., possessor of a Conspicuous Service Cross for work during the World War, will, if asked, refer to the contents of the wooden box and the packing case as "junk," but he has cherished that junk enough to have catalogued every item of its 500 component parts.

Specifically, the small box contains such things as caps, capulettes, citations, pay books, Iron Crosses, wound medals, etc. all belonging to German or Austrian troops who fought the Allies, and picked up by Col. Cook during his service in France. The packing case is filled with Zeppelin parts, pieces of shell, helmets and larger trophies.

Col. Cook, for example, will try to find Alfred Merten, of Gotha, Saxony. For in the small wooden box is an infantry cap and a shoulder strap which were taken from Merten by the French at Blaches in Artols, July 9, 1916. Col. Cook wants to restore the cap and strap and learn Merten's version of the war.

Another item Col. Cook wants to give back is a wound decoration, a stamped medal, finished in silver, that was bestowed upon Wladislaus Jaglia of the Fifth Company, 463rd Prussian Infantry, for being wounded four times at the front. Jaglia was captured on September 30, 1918, at Montigny.

Little Helps For This Week

Ye are all the children of light and the children of the day.—1 Thess. v. 5.

If one looks upon the bright side. It is sure to be the right side. At least that's how I've found it as I've journeyed through each day. And it's queer how shadows vanish, and how easy 't is to banish, From a bright side sort of nature every doleful thing away.

—Mary D. Brine.

There are souls in the world who have the gift of finding joy everywhere, and leaving it behind them when they go. Their influence is an inevitable gladdening of the heart. They give light without meaning to shine. Their bright hearts have a great work to do for God.

—Frederick W. Faber.

The habit of looking at the best side of any event is worth far more than a thousand pounds a year.

—Samuel Johnson.

Corns are painful growths. Holloway's Corn Remover will remove them.

Auntie—"Do you ever play with bad little boys, Willie?"

Willie—"Yes, Auntie."

Auntie—"I'm surprised. Why don't you play with good little boys?"

Willie—"Their mothers won't let me."

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

If, after years of toil, a man wins success some day is sure to come along and tell him how he might have won it in half the time.

"It's never too late to say dye," said the red-headed girl.

"Yes, it is," said the bald-headed man.

The discovery that the fiber of the cocoon spun by the silkworm could be made into cloth is ascribed to Se-Ling-She, a Chinese queen who lived about forty-seven centuries ago.

Betty: Have you a green lipstick? Shop Assistant: Green lipstick? Betty: Yes, a railway guard is taking me out tonight.

Men sometimes become wiser as they grow older, but they seldom become less foolish.

Some men's natural bent seems to be patterned after a corkscrew.

Drives away pain — Minard's Liniment.

Experiments of more than thirty years have proven that **Aluminum is the best container for tea. Red Rose Tea is now packed only in Aluminum, and every package is guaranteed to be in perfect condition.**

Teaches Glass Blowing

The University of Pennsylvania is the only large school in the United States which offers a course in glass blowing. The Professor is Frederick Wagner, one of the few glass blowers left in Pittsburgh. He has four students.

THE TONIC THAT GIVES STRENGTH

After Acute Diseases the Blood Must Be Built Up Before Recovery Is Complete

Fevers and other acute diseases like pneumonia and influenza, leave the patient weak, with thin blood and unstrung nerves. The period of convalescence is often long and trying, and years of poor health have frequently followed so brief an illness as an attack of influenza or pneumonia.

Much of this sort of misery could be avoided by taking steps to build up the blood so that it can carry to the nerves and other tissues of the body the elements they need to restore their normal functional activities. To build up the blood and restore it to its rich, health-giving vigor, no other medicine can equal Dr. Williams' Pink Pills. From first to last it is their mission to improve the blood and thus restore good health and vigor.

The value of these pills in conditions described above is shown by the statement of Mrs. Rebecca O'Brien, Pembroke, Ont., who says:—"In Nov., 1923, I was stricken with pneumonia, and at the time but little hope was held out for my recovery. However, with the best of care I was able to walk about after some months. But I did not recover my strength. The doctor told me I was anemic. My appetite was poor, I grew nervous and restless, I was deathly pale and practically gave up hope of ever being strong again. However, remembering that in my girlhood I had taken Dr. Williams' Pink Pills with decided success, I decided to try them again. By the time I had used two boxes there was no doubt the pills were helping me. Continuing their use I was soon able to attend to my household duties. I continued taking the pills, however, until I had used twelve boxes, by which time I was enjoying better health than at any time in the previous ten years. In gratitude for what the pills have done for me, I give this statement in the hope that it may point the way to health to some other weak, despondent woman."

You can get these pills from any medicine dealer or by mail at 50 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The fire brigade of a European village dashed into the village inn and the chief fireman said:

"Beer and sandwiches all around, please, and hustle up the order. We ain't got any too much time. We're on our way to a big fire."

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Tablets found in ancient Babylon and Assyria show that banking transactions were carried on 5,000 years ago. Cheques and notes were made of clay, which were then baked.

ECZEMA ITCHED A GREAT DEAL

Over Face, Neck and Hands. Cuticura Heals.

"Eczema broke out all over my face, neck and hands. It was in blisters and itched a great deal. My skin was awful sore and red, and sometimes the blisters would break and water would come from them. I was not able to do my work, and lost a lot of sleep. The trouble lasted over six months."

"I tried many different remedies without success. I began using Cuticura Soap and Ointment and after using four cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." (Signed) Miss Laura J. Brine, Boisford Postage, N. B.

Church Announcements
EVANGELICAL NOTES.

Rev. W. W. Krueger, P. E. and Superintendent of Missions, of Regina, will be a guest at the Evangelical parsonage on Friday of this week. He will conduct a Quarterly Conference business meeting at 8.00 p.m. in the parsonage and it is hoped that every member of the Quarterly Board will be in attendance.

The Lord's Supper will be observed next Sunday morning in Didsbury church and at Westcott in afternoon. In the evening the pastors sermon will be based on the subject of "Human Influences."

Think on these things:-
"Buried seed will grow, but buried talent never."
"Temper is a good thing to have but a bad thing to lose."
Our problems—"Let's meet them greet them, and BEAT them."

KNOX and WESTCOTT

The minister is taking for his theme for Sunday, Sept. 18th. "The healing of the nobleman's son." In spite of bad road conditions, there was a good congregation Sunday evening. Such is encouraging and since "worship" is one of the things men live by, Church Services should play a large part in the life of every individual. The subject chosen for this Sunday is one that drives away fear and gives courage.

Community Hall. 3 p.m. Those living near are asked to bring decorations for the Harvest Home Service on September 18th.

ST. CYPRIAN'S

(Church of England)
Priest-in-charge, Rev. H. Clay,
Box 157, Olds.

First Sunday in the month—Afternoon at 3.00 p.m.

Third Sunday in month—Morning at 11.00 a.m.

School is held every Sunday.

Scholarship.

Continued from page 1

Dormitory board and room, costing \$30 per month per student, is provided in the new buildings at Olds. The scholarship fund covers expenses, all but \$32 of the total cost of the board and room at Olds for the five-months term. The Short Course, irrespective of the scholarship, will be of value to those who attend it, and it is hoped that a large number will take advantage of the opportunity this affords.

May Abandon Country Elevators.

(Contributed)

As a result of legislation passed at the session of parliament just concluded, the struggle for existence which has been waged between the privately owned grain companies and the wheat pools has now entered the final and most critical phase. It is being predicted freely by prominent grain men and by disinterested persons who are well informed that the next six months may well witness a crisis in the grain trade without precedent in Canada. As a matter of fact, it is not unlikely that the federal government may have to intervene, in order to protect the interest of the country as a whole and take over the country elevators and operate them.

This struggle, which is by far the most gigantic that has taken place in the Dominion commenced in 1923 with the formation of the first provincial wheat pool in Saskatchewan. In the following year Manitoba and Alberta followed the lead, although there were slight differences in the manner of organization. These three pools then created a centralized selling agency.

The wheat pool was brought into ex-

istence to market the farmers' grain and to give him the margin of profit which he thought would be the prize of the grain merchant.

For the first three years the pools operated at a decided disadvantage. They had only a few country elevators and the Canada Grain Act did not compel country elevator owners to guarantee the grade and weight of wheat taken in for shipment to the head of the lakes or to Vancouver. It was the common practice of country elevators, however, to guarantee both grade and weight if the farmer permitted the elevator to nominate the destination of the grain.

Just why this was a decided disadvantage will be seen in a moment. If a farmer joined the wheat pool, he must ship his grain to the pool, and if there was not a pool elevator available he had to run all the risks of losses en route, and of being given a lower grade at the terminal point.

This was the great weapon which the grain trade had in this fight with the pools and it was used to tee limit. Farmers simply could not afford to run the risk of accident by rails and a farmer who had a crop of good quality, scarcely could be expected to take chances on the grade.

As a counter attack the pools built elevators and took over the Saskatchewan Co-operative Elevator Co. They now have about 2500 country elevators.

The pools also attempted to get an amendment to the Canada Grain Act through the western members of Parliament, compelling country elevators to guarantee grade and weight on all grain received. They were not successful until on April 14, of this year, the amendment became law.

The outcome of this is that the grain trade will have to formulate a new policy, in which the following factors are involved. Formerly country elevators were merely feeders for the terminal elevators, where the large profits were made. At country elevators the grain is loosely graded but is checked up government inspection at specified point where all grain must pass. As there are no facilities for treating grain at country elevators, the grain receives the grade it is entitled to at the time when it is brought in.

The grain trader, owner of a number of country and terminal elevators, makes his money by judicious mixing of the grain at the terminal elevator, to meet grading requirements at minimum expense.

Didsbury

Formerly he could get grain because the farmer would not get any guarantee of grade or weight unless the owner got the grain. Now this advantage is removed. In past years, the grain trade has competed for the grain. Charges for handling grain, for storing, weighing, and grading it, were reduced below cost to attract the farmer. The owner was willing to lose at the country, because he would be more than compensated for the loss at the terminal elevator. Now he is compelled to give the services of the elevator to dispatch the grain to the terminal of his competitor. From now on, operating country elevators will cease to be attractive, although they are an essential link in transporting grain. These are the factors the grain trade are now considering.

Reliable information is to the effect that the majority of the grain men are of the opinion that the best course to follow is to close down all elevators. To continue to operate, according to these men, would be ruinous. If elevators are closed down the government would be compelled to operate them because the service must be given or the wheat crop would be ruined. In the event the elevator operators would be entitled to some compensation.

Present indications are that this course may be adopted.
